

Lesson 2 - Biography- Part III

1.  Distract from your biography a **short version**.

Take your own biography and distract from your version a short part of max. 350 words. This part should be considered people use the most and should serve as a biography you can send to a promoter or festival, to use in their program booklet. So have a look at your flavours and impression makers, and decide what you should put into the light.
